9/11/19, 5:10 PM - Yanky Litchfield: I feel compelled to write the following here, after talking to a lot of people that have thanked me for saving them from almost being scammed. I felt that this would be Lashon Hora, which is why I never said anything earlier, but it's actually saving people from being scammed and then sued by this scam artist.

They have been asking me how I know that Ari Teman's product and business is all about suing his customers and people that he is involved with. I will let everyone make their own conclusions from his own website info, that they can see for themselves online, as well as doing their own research on his name, to see how many lawsuits he is involved with.

His website is <https://gateguard.xyz/> where he offers a FREE device for anyone that signs up for his service.

However, what no one ever does, is scroll down all the way to the bottom, where his draconian terms are written out. He locks all his customers into a 360 month deal (Yes THIRTY YEARS), and if you remove the unit or cancel the service, there is a \$50,000 fine (yes, FIFTY THOUSAND). Eventually his customers all rip it off, because it's a horrible product that really doesn't work (check app stores reviews), so he then sends them a \$50K bill, and then sues them when they don't pay.

I have first hand knowledge of at least 10 customers he has already done it to, and you can check online as well. He also uses every chance he can, to sue anyone that he is involved with.

His entire business is a scam.

Stay away from him.

9/11/19, 5:10 PM - Yanky Litchfield: Thank you. I was actually in touch with that guy recently offered his services to me instead of a door king system. Thanks for the heads up

9/11/19, 5:10 PM - Yanky Litchfield: Thank you for sharing... your 100% on target about this guy I've had my own share of experiences with him and I personally know a hand full of people that are currently being sued by him as we speak

9/11/19, 5:10 PM - Yanky Litchfield: Part of his terms is that he's not responsible to fix any issues with the system (such as software bugs)

9/11/19, 5:10 PM - Yanky Litchfield: Time for those people (his victims) to start lawsuits against him start giving him some of his own medicine today u can sue for anything Maybe just the color of his unit he has or the size of the screen just sue make him get lawyers & come to court that's what I would do if I was his victim

12/6/20, 3:29 PM - Abi Goldenberg: Dear friends and family,  
Rabbi Weiss was like a second father to all of his students. We have so much hakaras hatov to him. We are trying to raise some money to keep his vision alive. The Yeshiva he started is raising money to create programs that were dear to his heart while he was alive.  
I took a pledge to help them out. Whatever size donation you can make would mean a lot to us. Thank you very much I really appreciate it.
